

For our headquarter in Vienna we are looking for a

Head of Network & Connectivity Engineering (w/m/x)

Shape Anovis actively as the Head of Network & Connectivity Engineering at our Vienna location!

In this key role, you will be responsible for the operational and strategic leadership of the Network & Connectivity Engineering East team. This 11-member team is spread across the Vienna and Brno (Czech Republic) locations.

Your broad technical expertise in LAN/WAN/WLAN, from SD-WAN to firewalls, along with strong leadership skills, will enable you to create an environment for your team where they are both challenged and supported. Transparent, open communication and respectful interaction on an equal footing are essential in this regard.

At Anovis, a leading managed service provider, you will benefit from regular professional exchange with your colleagues and specialists in the sister companies of the [CymbiQ-Group](#).

Our colleagues are what is most important to us, which is why we at Anovis pursue a modern and employee-centred corporate culture and have been honoured as a top employer on various sites (e.g. [Kununu](#), [CHIP](#), [Great-Jobs.org](#)).

Your responsibilities

- You lead and develop the Network & Connectivity Engineering East team.
- You ensure efficient planning, implementation, and maintenance of network and connectivity solutions in (inter)national projects.
- You ensure the availability, security, and performance of the network infrastructure.
- Your technical expertise covers LAN, WAN, WLAN, SD-WAN, and firewalls.
- You develop and implement strategies for continuous improvement of network and connectivity services.
- You create synergies with other departments to understand customer requirements and offer tailored solutions.
- You are responsible for budget and resource management.

ANOVIS.COM

Your profile

- Completed technical education and several years of relevant professional experience.
- Solid knowledge in LAN, WAN, WLAN, SD-WAN, and firewalls.
- Experience in leading and developing teams.
- High social competence, excellent communication, and leadership skills.
- Strong strategic thinking, problem-solving skills, and self-initiative.
- Good knowledge of German and English (at least B2 level) in both spoken and written communication.

Our offer

- A varied, interesting job in an innovative, leading, internationally active IT company
- Integration into a dynamic and top-motivated team of highly qualified specialists
- Numerous opportunities for participation and development
- Gross annual salary 78.000-85.000€ (38,5h/week), based on the fulfilment of the job profile and the IT-KV
- Active promotion of work-life balance (including **up to 29 additional leave days**)
 - 6th week of annual leave
 - Flextime model without core time + 2 flex days/month
 - Reduced working hours (30-38.5 hours/week)
 - Home office (up to 80%)
- Company car with private use.
- Comprehensive training, internal and external further education, and promotion of individual development opportunities
- Joint celebrations in summer and winter, as well as regular team events & after-work parties

About Anovis

As part of the Swiss [CymbiO Group AG](#), Anovis operates thousands of IT security systems for globally active companies worldwide in cooperation with renowned partners such as A1 Telekom Austria, T-Systems, British Telecom, Cisco and Barracuda Networks, Extreme Networks, Palo Alto, Airlock Proofpoint or Riverbed. With our headquarters in Vienna and branch offices, we offer comprehensive services in the area of connectivity and security. Our services range from conception and implementation to 24/7 operational management of globally distributed IT systems. Our experts work closely with our partners to develop flexible, forward-looking, and cost-effective solutions that guarantee security and effectiveness and protect investments.

Anovis understands the IT infrastructure, network and IT security needs of customers and provides a highly skilled professional services and operations team to respond quickly and flexibly to ensure a customised, highly accessible IT infrastructure.

We explicitly encourage all people to apply regardless of gender, age, skin colour, sexual orientation, physical & mental abilities, origin or other protective characteristics.

We look forward to your application!
