

Austria-wide we are looking for you as

Senior Network & Security Engineer

Focus: NPM (m/w/*) 80-100%

Join Anovis as Network & Security Engineer focusing on Network Performance Monitoring at our locations in Vienna, Graz, Salzburg or Kundl.

As part of the international Network & Connectivity team, you are responsible for monitoring, analysing and optimising network performance. You identify and eliminate bottlenecks and thus ensure efficient and reliable network performance. Thereby you guarantee an optimal network quality as well as a smooth communication and increase the customer satisfaction.

At Anovis, a leading managed service provider, you will benefit from regular professional exchange with your colleagues and specialists in the sister companies of the [CymbiQ-Group](#).

Our colleagues are what is most important to us, which is why we at Anovis pursue a modern and employee-centred corporate culture and have been honoured as a top employer on various sites (e.g. [Kununu](#), [CHIP](#), [Great-Jobs.org](#)).

Your responsibilities

- Monitoring network performance and identifying bottlenecks
- Analysis of network protocols (TCP/IP) to diagnose performance problems.
- Use of the Wireshark tool for detailed analysis of network traffic
- Planning and implementing measures to improve network quality
- Working closely with relevant stakeholders to resolve network issues and ensure customer satisfaction
- Produce reports on network performance, trends and recommendations for customers, as well as internal stakeholders
- Conduct training and education on network issues

Your profile

- Completed technical education and 3+ years of relevant work experience
- Sound knowledge of network protocols and technologies such as TCP/IP, routing, switching and firewall configuration
- Experience with network monitoring tools and systems such as SNMP, Wireshark, Nagios or comparable tools
- Knowledge of products from the manufacturers Riverbed, Dynatrace and Netscout advantageous
- Strong analytical skills and the ability to identify complex problems and develop solutions
